### **President's Annual Report 2021**

2021 began on a positive note with many clubs scheduling Open Days and Charity events which we could not participate in last year. I endeavoured to attend as many as I could and was again made feel very welcome at all clubs, as I know other guests were.

Pennants went ahead as scheduled although the rain was a challenge this year as well as Covid. Thankyou to all the Clubs who made their courses available for competition and to their committees who helped run the event on the day. A special thank you to Barb Wallace who co ordinated a very successful Pennant season .

Unfortunately Covid took over yet again and some of our District events had to be cancelled, namely the Foursomes Championships and the CSGA District Championships. Because of the uncertainty with lock downs the Canberra Shield and Gala Day were also cancelled, a decision we did not take lightly.

All Clubs have been challenged yet again with forced closures and very limited golf. As we have recently returned to competition golf it has been terrific to see the smiles on faces as we stride down fairways. I urge you to support your home club and the other clubs in our District, all of whom will take some time to recover from the closures.

I would like to thank Yowani Golf Club for making their facilities available for our Committee and District meetings. I would also like to thank the CSGA Committee for their efforts in ensuring our District runs smoothly. An enormous amount of work goes on behind the scenes programming and running events and I greatly appreciate the time they devote to our District.

The CSGA aspires to encourage and support all women and girls in our District in their endeavours at mastering the game of golf. From our youngest junior to our most senior vet the CSGA Committee hopes that we can programme events that are inclusive of all our members.

As the end of 2021 approaches I wish you and your families a very happy and safe Christmas, one that you can enjoy together. I look forward to 2022 where hopefully we will be able to have a year of full competition without disruption.
